

1. MAMI adaptations in the context of COVID-19

① **SUSPEND/MODIFY** all community-group support sessions

② **INTENSIFY** public awareness around protection, promotion and support for optimal feeding

③ **Agree and COMMUNICATE** protocols around social distancing and wider IPC measures

④ **SIMPLIFY** case identification, admission criteria, counselling and treatment protocols

⑤ **INTENSIFY** pre-positioning of essential commodities

⑥ **Include PROVISION** of hygiene kits for children and PLWs with IPC messaging

⑦ Using Family MAMI-MUAC approach **INTENSIFY** efforts to strengthen the capacity of mothers/caregivers

⑧ Full **ADHERENCE** to the International Code of Marketing of Breast-milk Substitutes

⑨ **ADAPT** the MEAL plan and digital data tools
